

Project 8 - Final Project in 216

The last major assignment you will have in ECE216 is the final project.

You are asked to select a project, design and build it and then demonstrate it.

In a nutshell, here's the process. Basically there are three activities:

- **Proposal** (Select the project - which you have already done)
- **Demonstration** (Design, Build, Test, Debug and Demonstrate the Project)
- **Report** (create a report documenting the project)

The Final Project Report for ECE216

Your Project Report should include the following:

- 1) Title Page** (Title of project, contributors, date, abstract)
- 2) Discussion:** (Requirements, Results, Problems along the way with resolution, etc.)
- 3) Functional Diagram of System**
- 4) Schematic Diagram.**
- 5) Flow Chart**
- 6) Actual Code** (Fully commented)
